

SUSTAINABILITY

- We understand that climate change is a global problem that affects everyone.
- Our short and long-term sustainability objectives is to create a cleaner, more responsible and honest environment.
- Our mission is sustainable economic growth that should not come at the expense of society, environment or people.
- All new trucks at least EURO 6.
- All new trailers lighter and aerodynamic body. Help reduce 5% of fuel consumption. (Schmitz Cargobull Eco Generation).
- We reduce our overall energy consumption by using modern IT solutions.
- We are working daily with our customers to develop shorter, faster and more climate-friendly transport solutions.
- We offer clean and safe working environment.
- We direct our employees to live an active and healthy lifestyle.
- We support co-operation with companies who value green thinking.
- All our activities and processes are certified with ISO 14001 standards.
