

Joining the Planlogi eFTI platform

27.11.2025

The objective of the grant is to adopt Planlogi eFTI platform electronic CMR, reduce paperwork, and improve data exchange and efficiency in the transport and logistics sector.

Brief description of activities

- Full digitalisation of all CMRs.
- Integration with national and international Planlogi eFTI platform systems.
- Automation of data exchange and optimisation of work processes.
- Increased transparency and efficiency for transport companies and other stakeholders.
- Faster workflows and reduced errors through digital management.

Grant amount: 15,000 €

Grant recipient: Euroopa Transpordi OÜ

The project is funded by the European Union recovery fund NextGenerationEU (RRF).
